Learning and Teaching Strategies

The module will be completed over one term.

Students will undertake 2-weeks of pre-reading and online activities.

The module is taught through weekly 2-hour seminars and 2-hour workshops.

Seminars enable students to undertake directed self-study and to answer questions and solve problems which are set by the lecturer. Students will present their answers and solutions within the seminar group. Seminars enable students to explore further the topics introduced in the lectures.

Workshops follow on from lectures and seminars. They are designed to enable students to work within a small group to perform set tasks (e.g. working on an exercise or case study). They reinforce proactive learning by providing opportunities for discussion and interaction.

The seminar/workshop groups are small, thereby enabling students to develop a deep understanding.

Recorded lectures will be provided through the VLE, to provide a broad outline structure for each topic to be covered.

Student digital literacies are developed on this module through the use of, *inter alia*:

- Online libraries and databases for gaining access to full-text journal articles and eBooks, including Westlaw UK and Westlaw Practical Law.
- Communication means provided through the VLE and learning technology applications.
- Online group-work, for planning, developing, improving, submitting and reflecting on collaborative work completed as part of the module.
- Assessment and feedback tools such as Turnitin and the VLE's Gradebook – enabling timely and detailed feedback on student work.
- Web-based Office 365.
