For office use only	
Initial approval date	30/08/2024
With effect from date	30/08/2024
Date and details of	N/A
revision	
Version number	01

#### Module aims

The fundamental focus of the module will be the underlying principle of the triple bottom line, the accounting framework that incorporates social, financial, and environmental measures of success. Students will investigate each of these dimensions and learn how it is possible to apply and develop these concepts to evaluate and enhance business performance in a broad perspective to create greater business value and competitive advantage.

**Module Learning Outcomes** – at the end of this module, students will be able to:

1	Appraise the main concepts and principles of business ethics and social responsibilities in a business environment.
2	Critically evaluate the main concepts and principles of business ethics and social responsibilities in terms of their commercial consequences.
3	Evaluate the role of data exploration and financial management in business.
4	Critically analyse the concept of sustainability and the responsible use of resources within businesses.
5	Evaluate ways in which businesses embrace environmental responsibility.

#### Assessment

Indicative Assessment Tasks:

This section outlines the type of assessment task the student will be expected to complete as part of the module. More details will be made available in the relevant academic year module handbook.

- 1. A case study report, outlining and critically evaluating the implementation of CSR within a chosen business. The report will further investigate the role of financial management in business and how financial management techniques influence decision making. (2500).
- 2. A group presentation critically analysing the mismanagement of natural resources and/or environmentally irresponsible practices within business. (15 mins).

Assessment number	Learning Outcomes to be met	Type of assessment	Weighting (%)
1	1, 2, 3	Written Assignment	50
2	4, 5	Presentation	50

### Derogations

None

### Learning and Teaching Strategies

This module will be delivered via face-to-face classroom activities and consolidated with weekly online activities. Students will have to opportunity to discuss contemporary business issues and scenarios and classroom activities will include small group work, research skills and the sharing and application of knowledge.

There will be a large element of online learning, during which students will consolidate learning, and undertake research for assessments. They will discuss specific Ted Talks and Podcast via discussion forums and work individually or with peers to complete group activities.

## Indicative Syllabus Outline

- 1. Understanding the triple bottom line
- 2. Causes of business failure and the challenges of business survival.
- 3. Ethical theories and different approaches to ethics and social responsibility
- 4. Devising and applying ethical concepts and policies.

#### **Essential Reads**

Atrill, P. and McLaney, E. (2022), *Accounting and finance for non-specialists*. Harlow: Pearson.

#### Other indicative reading

Stromberg, L., Nichols, J. and Jones, C. (2024), *Intentional power: The 6 essential leadership skills for triple bottom line impact*. NJ: Wiley.

Cook, P.H. (2024), *Embedding Sustainability: How to drive sustainability transformation*. London: Kogan.

Washbrook, Y., Bloomfield, A. and Taylor, C. (2023), Engaging in Race Equity: Navigating Power and Privilege in Higher Education, in *Advance HE News* + *Views*. Available: <u>https://www.advance-he.ac.uk/news-and-views/engaging-race-equity-navigating-power-and-privilege-higher-education</u>

#### **Employability – the University Skills Framework**

Each module and degree programme are designed to support learners as they develop their graduate skills aligned to the University Skills Framework.

Using the philosophies of the Active Learning Framework (ALF) our 10 skills are embedded within programmes complementing core academic subject knowledge and understanding. Through continuous self-assessment students own their individual skills journey and enhance their employability and career prospects.

This Module forms part of a degree programme that has been mapped against the University Skills Framework.

# The Wrexham University Skills Framework Level Descriptors: An incremental and progressive approach.

Learners can use this document to identify where and how they are building skills and how they can develop examples of their success.
