At the end of this module, students will be able to		Key Skills	
1	Evaluate the role of the practitioner in providing holistic care for patients with chronic disease	KS1	KS3
		KS4	KS5
		KS6	KS9
2	Appraise a range of strategies in relation to holistic chronic disease management	KS1	KS3
		KS4	KS5
		KS6	KS9
3	Evaluate the care of a patient with a chronic condition taking into account the complexities of the condition and the context of care	KS1	KS3
		KS4	KS5
		KS6	KS9
4	Evidence higher level critical thinking skills and problem solving in the care of a patient with a chronic condition	KS1	KS3
		KS4	KS5
		KS6	KS9

MODULE SPECIFICATION PROFORMA

Transferable/key skills and other attributes

Critical thinking
Decision making and problem solving
Effective written and verbal communication skills
Initiative and self-direction in study

Derogations

The following derogation will apply for students undertaking the MSc Health Sciences (all routes): Any work submitted which indicates unsafe practice by the student, or which breaches anonymity and/or confidentiality, will result in overall refer/defer of the module.
In Addition:
Students undertaking the MSc Advanced Clinical Practice (all routes):
There will be no condonement allowed for any assessment, thus all elements of a module must be passed.

Assessment:

A care management study which critically evaluates the holistic assessment and implementation of care management for an individual or group with chronic disease, with regard to the student's own role and scope of practice. The role of the practitioner and interdisciplinary practice with other members of the multidisciplinary team/ complementary therapist(s) involved in order to provide holistic care will be critically applied to the individual or group's care.

Assessment number	Learning Outcomes to be met	Type of assessment	Weighting (%)	Duration (if exam)	Word count (or equivalent if appropriate)
1	1-4	Case Study	100%		4,000

Learning and Teaching Strategies:

A variety of learning and teaching strategies will be used. Interactive lectures will be used to provide core knowledge, whilst lecturer-facilitated, student-led small group discussion and seminars will support a problem-based, case based learning approach.
