Module Code	PSY768
Module Title	Contextual and Contemporary Practice
Level	7
Credit value	20
Faculty	FSLS
HECoS Code	100497
Cost Code	GAPS
Pre-requisite module	None

Programmes in which module to be offered

Programme title	Core/Optional/Standalone
MSc Applied Psychology	Core

Breakdown of module hours

Learning and teaching hours	21 hrs
Placement tutor support hours	0 hrs
Supervised learning hours e.g. practical classes, workshops	0 hrs
Project supervision hours	0 hrs
Active learning and teaching hours total	21 hrs
Placement hours	0 hrs
Guided independent study hours	179 hrs
Module duration (Total hours)	200 hrs

Module aims

This module will develop students' understanding of different applied psychological professions, including the ways in which they are similar and distinct from one another. Students will also gain an understanding of the evolution and development of these professions from their inception to contemporary practice. The module will also revisit classic psychological theory and approaches (such as psychodynamic, person-centred, cognitive behavioural, the biomedical model) and how they may have impacted upon different applied professions. Students will be encouraged to think about how practice may continue to evolve and consider what underpinnings will be relevant to different applied professions within the future.

Module Learning Outcomes

At the end of this module, students will be able to:

1	Evaluate different psychological professions and their application.
2	Critically evaluate theoretical underpinnings of modern psychological practice.
3	Critically discuss the role of applied psychological practice in relation to management of psychological conditions and/or disorders.

Assessment

Indicative Assessment Tasks:

This section outlines the type of assessment task the student will be expected to complete as part of the module. More details will be made available in the relevant academic year module handbook.

Assessment 1: A 3000-word critical essay discussing an area of applied psychological practice (e.g., the A underpinnings of clinical psychology).

Assessment 2: A 15-minute presentation (equivalent to 1000 words) on an area of applied psychological practice.

Assessment number	Learning Outcomes to be met	Type of assessment	Duration/Word Count	Weighting (%)	Alternative assessment, if applicable
1	2, 3	Written Assignment	3000 word	70%	N/A
2	1	Presentation	15 minute	30%	N/A

Derogations

All elements must be attempted.

Pass mark of 50%.

Learning and Teaching Strategies

A range of different learning and teaching strategies will be utilised in this module, including lectures, seminars, group and individual activities, directed and self-directed learning, and tutorials. Module content will include pre-recorded asynchronous online content that will inform synchronous sessions. This will allow students time to reflect on and further develop their knowledge ahead of consolidating learning through group workshops and/or seminars. All learning and teaching methods are supported by the University's virtual learning environment,

Moodle, where students will be able to access clear and timely information to support the delivery of content such as videos, links to relevant online information, discussion forums, and pre-recorded lectures. The University's Active Learning Framework (ALF) is embedded within the module to achieve optimal accessibility, inclusivity, and flexibility in terms of teaching and learning. This is in line with the principles of Universal Design for Learning (UDL). A learning blend is used that combines synchronous and asynchronous digitally enabled learning with best use of online opportunities and on-campus spaces and facilities.

Welsh Elements

Students can present their work, access forms, resources, email correspondence, placement support and personal tutorials in Welsh.

Indicative Syllabus Outline

- Applied psychological professions (i.e., clinical psychology, counselling psychology, health psychology, forensic psychology, occupational psychology, sport psychology, and educational psychology).
- History and evolution of applied psychological professions.
- History and evolution of psychological approaches (i.e., psychodynamic, behaviourism, constructivism, cognitivism).
- Applying theory to practice.
- Research in applied psychology.

Indicative Bibliography

Please note the essential reads and other indicative reading are subject to annual review and update.

Essential Reads:

Bekerian, D., & Levy, A. (2022). Applied psychology: Putting theory into practice. (2nd ed.). Oxford University Press.

Other indicative reading:

Dawson, D.L., & Moghaddam, N. (2016). Formulation in practice: Applying psychological theory to clinical practice. Sciendo.
