Learning and Teaching Strategies

The learning and teaching strategy is grounded in the University's commitment to an Active Learning Framework (ALF) so that learning will be both accessible and active, and include synchronous and asynchronous elements. Face to face teaching within this module will be minimal however there will be an opportunity for students to complete activities such as watching Panopto videos; undertake additional reading; post comment for a-synchronous debate. These activities will be the subject of formative feedback by the module tutor and will look to enhance their work based learning. Added to this, will be access to staff who provide presence, challenge and support for student learning and can relate learning to real world uses.

Indicative Syllabus Outline

- Introduction to employability within the football industry
- Glyndwr Graduate attitudes, attributes and practical skillset framework
- Reflective practice
