Section 2 – programme details	
2.1 Aims of the programme	
The proposed degree linked to the Football Association of Wales (FAW) is not just a football specific degree. The football coaching degree programme aims to prepare students who want to work in the football industry as a coach or performance specialist. Performance specialists include the roles of physiologist, psychologist, performance analysis, coach/player development, and academy managers etc. who want to work specifically in the football environment. The degree design and development positions the programme as one of the leading NGB specific degrees in the country. It is envisaged it will attract interest at a local, regional, and national level. In addition to the	

2.1 Aims of the programme

degree being relevant for the 18 – 25 year age ranges the degree will also integrate up-skilling of professional practitioners and a return to study for experienced individuals.

Specifically, the BSc (Hons) Football Coaching and the Performance Specialist aims to equip students with:

- A strong understanding of the coaching process within a football context.
- A strong understanding and the ability to engage with all ends of the performance spectrum from grassroots to the elite levels.
- The development of pedagogical and applied vocational skills required in the football industry.
- The development of specialist knowledge relating to all aspects of applied football performance – physiology, psychology, performance analysis etc.
- The ability to understand the performance and coaching environment of football from an interdisciplinary and multi-disciplinary perspective.
- The ability to evaluate, interpret and analyse both academic information and applied practice information relating to football.
- The generic and transferable skills demanded by employers such as communication, numeracy, information technology, research, assertiveness and ability to work independently and teamwork.

2.4 Learning and teaching strategy

The learning and teaching philosophy will be in line with the University's framework – the focus will be on learning with the deployment of teaching methods that promote effective student learning, self-development and reflection, with assessment and study activities taking place inside and outside the class.

The learning and teaching methods will encourage use of the applied setting and help the student develop transferable skills such as communication, being able to discuss, analyse and critically analyse and the ability to work as an individual and a team member.

To achieve the overall aims of the learning and strategy, the programme team have attempted to ensure that the methods employed across the programme have a continued emphasis on student learning and being fit for the football industry. There will be an opportunity to experience a placement in the Tomorrows Practitioner: The Sport and Exercise industry Sport Placement.

All modules will be delivered by academic staff with guest lecturers also contributing to the module teaching plans.

All students will have access to IT suites, up to date computer software and continuous face to face support from academic staff. A wide variety of learning and teaching methods will be used via the university's VLE, including lectures, seminars, practical based sessions and presentations, Blended learning will also be embedded into the degree via classroom and online tasks.

Practical, professional and employability skills will be met via all modules with students demonstrating time management, independent working and written and oral communication skills. Students will be expected to undertake directed study tasks supported by further reading and keeping up to date with the relevant subject literature.

There will be practical and theory elements to the course and also an opportunity to join our renowned centre for performance analysis which is a method of developing knowledge gained in lectures/seminars and using it in an applied setting.

The accredited coach educators within the department will mentor, assess and award the FAW football specific coaching qualifications Level 1 Introduction to football coaching, UEFA Grassroot leaders Award (UGLA), Level 2 FAW C Licence and Level 3 FAW/UEFA B Licence). The content relating to the football qualification is integrated into the modules of the degree programme. For example, students may attend a lecture/seminar where the information is relevant to both the assessment of the module but also is relevant for the Coach Education award. Assessment for the FAW coaching awards will involve a separate process to the module assessment and successful completion of the coaching awards will be determined by the FAW.

L 4 Students will complete the FAW Level 1 coaching award which will be assessed by the FAW in an online format. The online FAW modules are already in existence.

At the start of Level 4 of the academic degree programme students will engage with 120 credits.

Students who successfully complete Level 4 will progress to Level 5 of the degree or if exiting be awarded a Certificate of HE in Football Coaching and the Performance Specialist. Additionally, at Level 5 students will engage with the UEFA C Licence (Level 5 of the degree) students will complete the additional requirements of the FAW award (content booklet). Students may successfully complete the module but not obtain the standard required by the UEFA C Licence. Students not successful in completing the UEFA

2.4 Learning and teaching strategy

C Licence will have the opportunity to re-sit the coaching award. An action plan will be linked to their PDP process.

Students progressing onto Level 6 of the degree programme will continue their academic development and commence engagement with the FAW/UEFA B Licence coaching qualification. The content for the FAW/UEFA B Licence is distributed across Level 6 of the academic degree programme. This enables students to develop and extend their coaching knowledge and reflect on their personal and professional development as a coach over that year. In the final year (Level 6) students will have engaged with all elements of the FAW/UEFA B Licence and will be assessed by FAW qualified coach educators within a practical setting. This will link to their Level 6 module of *Advanced Football Coaching and Performance*. Students successfully completing the FAW/UEFA B Licence will be awarded the qualification by the FAW.

2.5 Assessment strategy

The programme offers both formative and summative assessment opportunities to support student learning and achievement.

Formative Assessment

Formative assessments are embedded throughout various modules and serve as a valuable tool for student development. These include:

- Peer feedback sessions
- Multiple-choice questionnaires
- Kahoot quizzes

These assessments are typically reviewed and discussed during teaching sessions, giving students the chance to reflect on their performance and identify areas for improvement in preparation for summative assessments.

Summative Assessment

Assessment methods are designed to meet the needs of individual learners and groups, and they effectively measure the knowledge and learning outcomes associated with each module and the programme as a whole.

The Sport team currently provides multiple forms of feedback for summative work:

- **Turnitin QuickMarks** on submitted documents
- **Verbal feedback**, which highlights three strengths and three areas for improvement
- **Written feedback** aligned with learning outcomes
